Gox7 Product Guide & Selection

Plastic Parts

(interior parts, skirting, side mirror, bumper)

Suitable Product:

- AC 710 Plastic & Paint Surface Cleaner
- AP 7100 Plastic & PP Primer Coat
- AB 72** Series Premium Enamel Color
- AM 75** Series Automotive Metallic Color
- AT 77** Series of Automotive Camouflage Color
- Gc79*-** Leather Crackle Effect Paint

Engine Cover & Parts

(required heat resistance up to 150°C)

Suitable Product:

- AC 700 Metal Surface Cleaner
- AB 7301 Hi-Heat Primer Coat
- AW 78** Series Automotive Wrinkle Finish Paint
- AB 72** Series Premium Enamel Color
- AM 75** Series Automotive Metallic Color
- AT 77** Series of Automotive Camouflage Color
- Gc79*-** Leather Crackle Effect Paint

Exhaust System & Brake System Parts

(required heat resistance up to 650°F)

Suitable Product:

- AC 700 Metal Surface Cleaner
- AB 7301 Hi-Heat Primer Coat
- AB 73** Series High Heat Resistance Paint

Metal Parts

(car body, wheels/rims)

Suitable Product:

- AC 700 Metal Surface Cleaner
- AP 7102 Standard Primer Coat
- AB 72** Series Premium Enamel Color
- AM 75** Series Automotive Metallic Color
- AT 77** Series of Automotive Top Coat
- AT 77** Series of Automotive Camouflage Color
- AW 78** Series Automotive Wrinkle Finish Paint
- Gc79*-** Leather Crackle Effect Paint

AUTOMOTIVE WRINKLE FINISH PAINT GOX 7 AQ 78** WRINKLE FINISH SERIES

Description

- AW 78** Series of Automotive Wrinkle Finish paint is a Hybrid Technology system paint brings you ultimate protection for your valued vehicle, with refinishing work made easy, anytime, anyway, with your own creative idea and design as well as re-styling your vehicle to reflects the current design trends with always new and fashionable colours.
- Automotive Wrinkle Finish paint is formulated to produce the original wrinkle finish found on a variety of car parts, and to give a new look and special texture effect to metal and plastic parts.
- Gox7 Wrinkle Finish series features an advanced spray system that allows you to spray at any angle, even upside down for those hard to reach areas. A comfort spray tip with a wider finger pad reduces fatigue caused by continuous spraying - supplied with 2 nozzles.

Available Colors

Resist Temperature up to 150°C

This series of product is ideal & suitable for:

Manufactured by
ISO 9001
Certified Factory

Manufactured by
ISO 9001
Certified Factory

Features

- Once fully cured, Gox7 Automotive Wrinkle Finish paint will exhibit a very hard paint film with good resistant to color fading, grease, petrol and diesel without distortion, and **resist high temperature up to 150°C**.
- This track-tested formula is ideal for use on metal & plastic engine cover coating project, interior & exterior plastic parts, sport rim/wheel coating project, as well as automotive trimming project.
- This tough durable finish is extremely resistant to corrosion, chipping and very good weather resistance; make it ideal for car enthusiast and auto-refinish professionals.
- All Gox7 Aerosol Products features an advanced spray system that allows you to spray at any angle, and a comfort spray nozzle with wider finger pad reduces fatigue caused by continuous spraying – supplied with 2 nozzles.

AUTOMOTIVE HIGH HEAT RESISTANCE PAINT AB 73** HI-HEAT SERIES FOR EXHAUST @BRAKE SYSTEM PARTS

Description

- AB 73** Series of Automotive Brake Caliper & Brake Drum paint is a Hybrid Technology of silicone acrylic urethane system brings you ultimate protection for your valued vehicle, with refinishing work made easy, anytime, anyway, with your own creative idea and design as well as re-styling your vehicle to reflects the current design trends with always new and fashionable color.
- All brake caliper and drum paint paints are formulated to its maximum durability and heat resistance, and to withstand corrosion, rust, and chemicals while resisting chipping, cracking and fading.

Available Colors

AB-7301 HI-HEAT PRIMER	AB-7302 SEMI BLACK	AB-7303 TEXTURE BLACK	AB-7304 METAL RED	AB-7306 FAST BLUE	AB-7308 NEON GREEN	AB-7309 LAMBO YELLOW	AB-7311 HEAT GOLD	AB-7313 HEAT SILVER	AB-7314 POLISH SILVER

Resist Temperature up
to 650°F (350°C)

Dry to touch in 30 min, and
dries thoroughly overnight
and days

This series of product is ideal & suitable for:

Features

- Premium automotive brake drum paint with excellen durability and heat resistance up to 650°F (350°C).
- This track-tested formula is ideal for use on brake caliper, brake drum, brake rotor centre and ribs, wheel hubs, and parts required high heat resistance.
- Fast drying with excellent corrosion prevention and prevent chipping, cracking and peeling.
- Outstanding weather and heat resistance, amke it ideal for car enthusiast and auto-refinish professionals.

AUTOMOTIVE PREMIUM CLEAR COAT PAINT AT 77** TOP COAT CLEAR SERIES

Description

- AT 77** Series of Automotive Top Coat is a Hybrid Technology of acrylic urethane system brings you ultimate protection for your valued vehicle, with refinishing work made easy, anytime, anyway, with your own creative idea and design as well as re-styling your vehicle to reflects the current design trends with always new and fashionable color.
- All top coat paint are formulated to its maximum glossiness and texturing effect with excellent durability and heat resistance, and to withstand corrosion, rust, and chemicals while resisting chipping, cracking and fading.

Available Clear Coat

AT-7701 PU GLOSS CLEAR	AT-7703 SATIN CLEAR	AT-7704 TEXTURE CLEAR

Resist Temperature up
to 150°C

Dry to touch in 30 min,
and dries thoroughly
overnight and days

This series of product is ideal & suitable for:

Manufactured by
ISO 9001
Certified Factory

Manufactured by
ISO 9001
Certified Factory

Features

- Premium automotive top coat paint with excellent glossiness and texturint effect.
- This track-tested formula is ideal for use on sport tim/wheel coating project, metal & plastic engine cover coating project, interior & exterior plastics parts, as weel as automotive trimming project.
- Fast drying with excellent corrosion pevention and prevent chipping, cracking and peeling.
- Outstanding ewather and fanding resistance, make it ideal for car enthusiast and auto-refinish professionals.

AUTOMOTIVE HI-HEAT PRIMER AB7301

Description

- AB 7301 Hi-Heat Primer is a specific purpose, fast drying primer ideal for high heat parts and exterior applications, as well as improves adhesion of color basecoat and lacquer topcoat to high heat parts surfaces, such as brake caliper, brake drum, brake rotor centre and ribs, wheel hubs, and engine parts and parts required high heat resistance .
- Often, primers are formulated to be color keyed to allow minimum basecoat film thickness and to minimize the effect of stone chipping, making it ideal to use as the first step in all automotive priming projects and for use on spot repair.

Features

- Improves adhesion of subsequent color basecoat and topcoat.
- Formulated in white color to allow minimum basecoat and topcoat film thickness, with excellent durability and heat resistance up to 650°F (350°C).
- This track-tested formula is ideal for use on brake caliper, brake drum, brake rotor centre and ribs, wheel hubs, and parts required high heat resistance.
- Fast drying with excellent corrosion prevention and prevent chipping, cracking and peeling.
- High build formula helps fill deep scratches and minor imperfection, make it ideal for car enthusiast and auto-refinish professionals.

Resist Temperature up
to 650°F (350°C)

Dry to touch in 30 min,
and dries thoroughly
overnight and days

AUTOMOTIVE PLASTIC & PP PRIMER AP 7100 & AP 7101 PP PRIMER

Description

- GOX 7 Plastic & PP Primer Coat Product is an specific purpose, fast drying primer ideal for both interior and exterior applications, as well as improves adhesion of color basecoat and lacquer topcoat to all plastic surfaces especially low surface energy and non-olefin plastic, making it ideal to use as the first step in all automotive priming projects and for use on spot repair.

Features

- Excellent adhesion to PP plastic.
- Fast drying with improves adhesion of subsequent colour basecoat and topcoat on plastic surface especially low surface energy and non-olefin plastic.

This series of product is ideal & suitable for:

Dry to touch in 30 min,
and dries thoroughly
overnight and days

AUTOMOTIVE METAL SURFACE DEGREASER AC 700 METAL SURFACE CLEANER

Description

- Pre-treatment and surface preparation offers an extensive line of cleaning and degreaser solution to your painting surface preparation.

AC 700 Surface Cleaner & Degreaser is a fast acting, industrial strength cleaner containing zero ozone depleting potential. It is a high

- performance, non-chlorinated product designed to remove grease, oil, wax, road tar, dust, dirt, grime, silicone, carbon residues, industrial soils from any surface generally encountered in automotive and industrial parts.

Features

- Fast evaporation with no residue and strong flushing action, preventing costly downtime of painting surface preparation.
- Safe on all metal and does not attack most paints.

This series of product is ideal & suitable for:

Manufactured by
ISO 9001
Certified Factory

AUTOMOTIVE METAL SURFACE DEGREASER AC 700 METAL SURFACE CLEANER

Description

- Pre-treatment and surface preparation offers an extensive line of cleaning and degreaser solution to your painting surface preparation.
- GOX7 AC 710 Surface Cleaner & Degreaser is a fast acting, industrial strength cleaner containing zero ozone depleting potential. It is a high performance, non-chlorinated product designed to remove grease, oil, wax, road tar, dust, dirt, grime, silicone, carbon residues, industrial soils from any surface generally encountered in automotive and industrial parts.

Features

- Non toxic and non corrosive.
- Does not bleach or discolor surfaces.
- A fast acting industrial cleaner for plastic and pre-coated parts.
- Safe on all hard surface and does not attack most paints and plastic parts.

This series of product is ideal & suitable for:

Manufactured by
ISO 9001
Certified Factory

AUTOMOTIVE ADHESIVE & STICKER REMOVER AC 730 ADHESIVE & STICKER REMOVER

Description

- GOX 7 adhesive and label remover for surface preparation offers an extensive line of cleaning and degreaser solution to your painting surface preparation.
- GOX 7's AC 730 General Purpose Adhesive and Label Remover is a high performance, non-chlorinated product with specially blended solvent for removal of adhesive residue, glue residue, silicone oil, wax, grease, tar and oil from any surface generally encountered in automotive and industrial parts

Features

- Non toxic and non corrosive.
- Does not bleach or discolor surfaces.
- Quickly removes adhesive, label, wax, grease, oil from any surfaces.
- Safe on all hard surface and does not attack most paints and plastic parts.

This series of product is ideal & suitable for:

AUTOMOTIVE LEATHER CRACKLE EFFECT PAINT GC 79* LEATHER CRACKLE PAINT SERIES

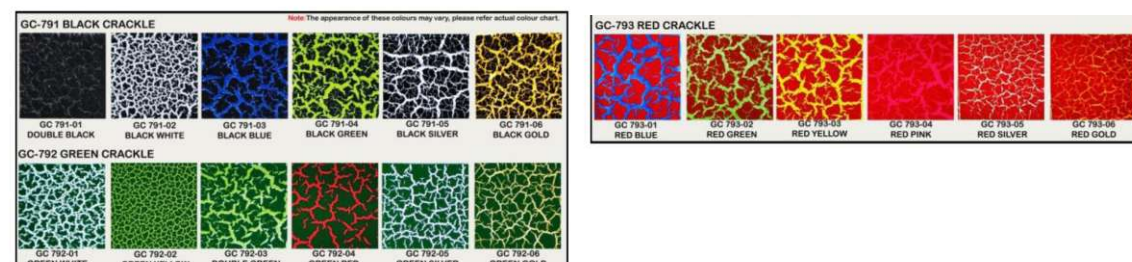

Description

- Gox7 Leather Crackle Effect Paint, your unique identity never be the same. This is new and easy to apply special effect paint that gives a very affective eye catching looks.
- Leather Crackle Effect Paint from Gox7 is a 2-parts system of a base coat and top coat system that use acrylic system paints to give objects an antique look. Now you can produce this special leather crackle effect finish in a few minutes time from an aerosol spray can..

Features

- Easy-spray Technology - Effortless finger pad, spray from any angle, twist-lock cap.
- Unlimited colour selection and design.
- Resist high temperature up to 150'C.
- Multisurface paint for interior & exterior ,increase durability.
- Unique identity never be the same.

Available Colors

Application tips

- For interior and exterior use.
- Use only in well ventilated areas. Ensure surface is clean and dry. Shake can well before use and between applications. Before applying spray on an inconspicuous area to ensure compatibility and suitability.
- For Small crackle effect - apply 1 even thick layer of top-coat.
- For Bigger crackle effect - apply 2 to 3 even thick layer of top-coat.

MAGICSKIN NANO FILM

GX 79* MAGICSKIN NANO FILM

Description

- **MagicSkin-Nano Film** a total solution for your refurbish project. Nano Film not just Peelable. Now you can experience the well protection & translucent colors from Gox7 MagicSkin-Nano Film.
- Another innovative product from Gox7 Team.

Features

- Maximum Protection in term of scratch and chemicals resistance
- Able to apply wax polishing for durable protection
- Waterproof paint film with wash ability and eases the removal of dirt and grime, a quick easy and convenient way to design colours for your garage projects
- MagicSkin protects all external paintwork and ensuring less harm to original paint surface. Kick away the hazards cleaning and wasteful sanding off process with MagicSkin for your garage projects; protects the environment by saving on chemicals and energy – no waste of resources

Available Colors

Application tips

- For headlight use.
- Surface Cleaning
- Apply 5-7 layers or more of MagicSkin Nano Film
- Note: The more layers applied, the more easier to peel off.

RUST DEFENDER PROTECTIVE COATING GD 7901 RUST DEFENDER

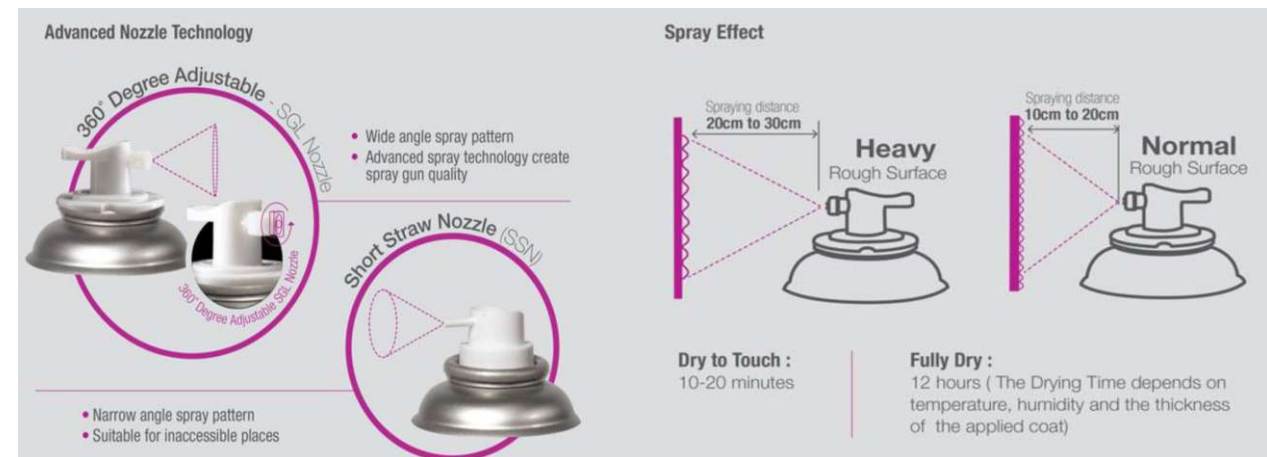

Description

- **Gox7 Rust Defender** coating is specially formulated to protect against from Rust, Corrosion, Moisture and Abrasion, is ideal for cars, trucks and commercial vehicle. The toughness and durable rubberized protective coating providing a long-term protection.
- Rust Defender is tested for strength and protection both in the laboratory and in harsh, real-world conditions to ensure the highest levels of durability.

Features

- Anti-corrosive coating protects the vehicles from rust, abrasion and moisture
- Heavy Duty Protective Coating
- Tough and Durable Finish to protects the most surface from abrasion
- Sound deadening properties help reduce road noise and reduce road vibration
- Resist temperature up to 250°F
- Fast Drying and Paintable
- Aerosol Spray allows for easy spray-on application

Advanced Spray Technology Spray-Right 360°

- Narrow angle spray pattern.
- Suitable for inaccessible places.

AC 700 Heavy Duty Cleaner

Description

Heavy duty cleaner with strong flushing action which safe on all metal with no residue remains. Cleans grease, oil, wax, road tar, silicone, carbon residues, and etc.

Features

- Heavy duty degreaser.
- Safe to use on metal part.
- Cuts through stubborn grease, grime and other hard-to-remove soils quickly.
- Effective penetrate, clean & remove grease, oil, fluid, wax, road tar, dust, dirt, grime, silicone, carbon residues.
- Contains no chlorinated solvent.
- Advanced Technology Spray Right 360° - Spray at any angle.
- Environmentally-friendly and safe at workplace propellant.

Application

Allow spray surface to remain wet with solution for a minimum of 2 minutes and scrub or wipe off as required. Superior results can be obtained by several time of spraying the parts and wipe off with clean dry cloth.

Strong Penetration	5
Fast Evaporation	1
Road tar, Grime & Carbon Cleaning	5
Safe on Most Plastic	1
Oil, Grease, Dust & Wax Cleaning	5

AC 730 Power Remover for Adhesive, Label and Sticker

Description

Non-chlorinated product which safe on all hard surface. Strong removal for adhesive residue, self-adhesive paper label, wax, some inks and dyes.

Features

- Safe on metal and glass.
- Non-corrosive.
- Quickly removes adhesive, self-adhesive paper label and wax.
- An effective cleaner for removal of some inks and dyes.
- Contains no acetone and chlorinated solvent.
- Advanced Technology Spray Right 360° - Spray at any angle.
- Environmentally-friendly and safe at workplace propellant.

Application

Allow spray surface to remain wet with solution for a minimum of 15 to 30 seconds and scrub or wipe off as required. Superior results can be obtained by several time of spraying the parts and wipe off with clean dry cloth.

Strong Penetration	4
Fast Evaporation	3
Road tar, Grime & Carbon Cleaning	3
Safe on Most Plastic	1
Oil, Grease, Dust & Wax Cleaning	4

AC 790 Throttle Body, Carburetor & Choke Cleaner

Description

Special effective solvent with excellent cleaning effect to clean typical contamination and deposits found in throttle valve and carburetor areas. No oil remains after dried and increase engine performance.

Features

- Excellent cleaning effect.
- No oil remains after dried.
- Increases engine performance.
- Clean the calibrated drill holes and nozzles.
- Contains no chlorinated solvent.
- Advanced Technology Spray Right 360° - Spray at any angle.
- Environmentally-friendly and safe at workplace propellant.

Application

Spray contaminated components and allow to drain. After the solvent has evaporated, the components will be clean and free from grease.

AC 720 Green & Biodegradable Degreaser

Description

Non flammable heavy duty cleaner without harsh chemicals and safe for environment. Cleans grease, oil, wax, road tar, grime, carbon residues, and etc.

Features

- Non skin sensitizers.
- Completely biodegradable.
- Non-flammable & non-combustible.
- Non-toxic, non-hazardous & non-corrosive.
- Heavy duty & strong cleaning solution.
- Emulsifies grease & oils without use of harsh acids, alkalines or petroleum solvents.
- Contains no acetone and chlorinated solvent.
- Advanced Technology Spray Right 360° - Spray at any angle.
- Environmentally-friendly and safe at workplace propellant.

Application

Allow spray surface to remain wet with solution for a minimum of 2 minutes and scrub or wipe off as required. Superior results can be obtained by several time of spraying the parts and wipe off with clean dry cloth.

AC 710 Plastic & Paint Surface Cleaner

Description

Special aims for cleaning plastic parts. Non-corrosive cleaner that safe on most paints and plastic parts. Remove surface contamination, stains, chemical degradation with ease.

Features

- Safe on all hard surfaces.
- Non-corrosive.
- Does not bleach or discolor surfaces.
- Does not attack most paints and plastic parts.
- Effective in cleaning oil, grease, dust, wax and industrial soils.
- Contains no acetone and chlorinated solvent.
- Advanced Technology Spray Right 360° - Spray at any angle.
- Environmentally-friendly and safe at workplace propellant.

Application

Allow spray surface to remain wet with solution for a minimum of 2 minutes and scrub or wipe off as required. Superior results can be obtained by several time of spraying the parts and wipe off with clean dry cloth.

AC 750 Mild Remover For Adhesive & Glue

Description

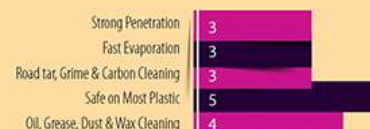

Non-chlorinated product which safe on plastic and on certain paint surface. Used to remove adhesive residue, self-adhesive paper label, glue residue, wax, some inks and dyes.

Features

- Safe on most plastic and paints surface.
- Non-corrosive.
- Does not bleach or discolour surfaces.
- Quickly removes adhesive, self-adhesive paper label, and wax.
- An effective cleaner for removal of some inks and dyes.
- Contains no acetone and chlorinated solvent.
- Advanced Technology Spray Right 360° - Spray at any angle.
- Environmentally-friendly and safe at workplace propellant.

Application

Allow spray surface to remain wet with solution for a minimum of 15 to 30 seconds and scrub or wipe off as required. Superior results can be obtained by several time of spraying the parts and wipe off with clean dry cloth.

AC 770 Automotive Cleaner Multi Purpose Solution

Description

Multi-purpose aerosol degreaser, quickly penetrating grease, oil, dirt and grime. Cleans engines, brake parts, rotors, calipers, springs and etc.

Features

- Universal application.
- Strong flushing action.
- Fast evaporation with surface free from grease and residues.
- Cleans engines, brake parts, rotors, calipers, springs and etc.
- Advanced Technology Spray Right 360° - Spray at any angle.
- Contains no acetone and chlorinated solvent.
- Environmentally-friendly and safe at workplace propellant.

Application

Spray contaminated components and allow to drain. After the solvent has evaporated, the components will be clean and free from grease.
